Professional Summary

Motivated BCA student with hands-on experience building Python and TypeScript applications alongside Data Analysis and AI Engineering projects. Proficient in Python, SQL, machine learning, and exploratory data analysis, with UI/UX industrial training and exposure to LLMs and Agentic AI. Eager to contribute to software applications and Agentic AI integrations as a Python Developer or IT Intern.

Technical Skills

Languages: Python, SQL, TypeScript, HTML
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Core: Machine Learning, LLMs (Basics), Agentic AI (Basics), Data Analysis, Statistics, Data Visualization, Data Cleaning & Preprocessing, Deep Learning (Basics), NLP (Basics), UI/UX Design (Basics)
Tools & Technologies: Jupyter Notebook, Google Colab, MySQL, Power BI, Tableau, Excel (Advanced), Firebase, Vite, VS Code, Git & GitHub
Soft Skills: Problem Solving, Critical Thinking

Experience / Projects

Software & Academic Projects (GitHub)

SmartCrowd – Crowd Queue and Crowd Management System — *TypeScript, Vite, Firebase* GitHub

- Developed a system that monitors crowd density and queue length in real-time using Computer Vision and AI techniques with a smart dashboard.

Hostel Complaint Management System — *Python* GitHub

- Built a Python application to register and manage hostel complaints.

Industrial Training

UI/UX Industrial Training Program — *ThinkNEXT Technologies Pvt. Ltd., Mohali* 01 June 2026 – 03 July 2026

- Successfully completed the industrial training program in UI/UX and was awarded Grade A.

Data Analysis Projects

- Performed exploratory data analysis on a sales dataset using Python (Pandas, Matplotlib, Seaborn), including data cleaning and transformation to generate insights for decision making.
- Created interactive dashboards in Power BI to visualize key business metrics.

AI Engineering Projects

- Built a Machine Learning model to predict student performance.
- Developed an AI-based Chatbot using Natural Language Processing concepts.
- Implemented classification models using Scikit-learn for real-world datasets.

Education

PCTE Group of Institutes, Ludhiana, Punjab 2024 – 2027
Bachelor of Computer Applications (BCA)

BCM School, Dugri, Ludhiana (CBSE) Ludhiana, Punjab
Completed Secondary Education

Certifications

AI Fusion 2026 – Agentic AI Workshop – Splen Technologies & Education Pvt. Ltd. September 2026
AI Tools & ChatGPT Workshop – be10X October 2026
Data Analysis with Python – Great Learning 2024
Excel for Data Analysis – Great Learning 2024
Introduction to SQL – Simplilearn 2024
AI For Everyone – Coursera 2024

Languages

English, Hindi, Punjabi
